SOFTWARE ENGINEER Care/of

Mar 2019 - Present | New York, NY

Backend engineer mostly on the web team. Worked on the tail end of launching the Powders initiative. Implementation engineer on the move to Heap Analytics. PM/Tech Lead/Engineer on moving the company from USPS to DHL eCommerce. Integrated Trustpilot. Worked on the roll out of Ginseng. Outside of those project, I worked on infrastructure tasks and tech debt cleanup

CREATIVE TECHNOLOGIST STÜDIOHAUS

Sep 2018 - present | New York, NY

Inspired by the internet, a few friends came together with the idea that we could create fun, engaging, and viral content to help companies break the mold of traditional advertising. My job is to design and build our apps. Our stack is currently Node + Express + React all hosted on GCP.

SKILLS

Ruby on Rails	Ruby
Ember	Python
React	Java
PostgreSQL	Javascript
Android	C#
GCP	Adobe CC
C	Unity 3D

SOFTWARE ENGINEER BLUE APRON

Aug 2017 - Dec 2018 | New York, NY

Full stack engineer on the Member Experience team. Over the past year I've worked on Recipe Ratings v2 API, Merchandising v1 api, Merchandising CMS in Ember.js, and Preference Collection api. I also worked on the consumer facing React app as well. All api work was done in Ruby on Rails.

SOFTWARE ENGINEER / PM JOYCESTICK VR

Sept 2016 - July 2017 | Boston, MA

Unity Developer for *Joycestick*, an interactive virtual reality game based on James Joyce's novel *Ulysses*. The game is the product of a cross functional 20 person Boston College digital humanities project that toured the globe, and was featured in several national news outlets.

EDUCATION

Boston College
B.S. Computer Science
Math Minor
2013 - 2017

SOFTWARE ENGINEERING INTERN BLUE APRON

JUN 2016 - Aug 2016 | New York, NY

Summer intern working on the Consumer Features team. I joined the teamworking on refactoring coupons. I also developed the backend for a New User Onboarding Module which was designed and created by a team of fellow interns with the goal to reduce churn by familiarizing new users with BA's digital + physical product
